Participants in this workshop will learn how to use this very basic tool to create beautiful art. This class strives to elevate those marks you made in 2nd grade to professional-quality pieces of art. From making a color chart to layering colors to blending, plus learning the difference between types of pencils to the wide range of paper surfaces, this workshop will give you the basics from which to create your masterpiece.

Bring several photos that you would like to paint. Paula will have extra pictures for those who just wish to learn the techniques or need a second subject.
