“NEW” Program for ... Returning Students!

I have developed a new program for students who within the last three years, have been in one or more of my CONSECUTIVE 3, 4, or 5 day *Watercolor Secrets Revealed* workshops ...

"An advanced workshop within a workshop"!

This customized program provides you with:

- A review and evaluation of your artwork before the workshop.
- A customized plan of action during the workshop
- One extra hour of instruction daily (during the lunch hour; you will take your lunch hour at a different time)
- A special table area during the workshop
- A customized painted prelim of your subject

Here is what you need to do:

- Notify the Workshop Director that you are a “Returning Student”!
- Approximately 2 – 3 weeks before the workshop, mail me on card stock (3 or 4) 5” x 7” printed color copies of your current work that I can write a critique on. These should be pictures of art that you have completed since the last workshop you attended with me. Please include the year and name of the hosting group; or the city and state of that workshop.

This way we can continue from where you left off after your last workshop; and continue to advance further with a personalized plan. This program will give you the opportunity to start right off on doing a finished painting. There are usually others doing the same thing and I set aside a special place where you, and the others, can sit together. If you hear something I am doing with the new students, you can join us; otherwise I will come visit you at your table and offer any help needed. I have tested this out before with rave reviews. So, if it fits in your schedule this year (or at another time) ... join me again. Wish you a wonderful year of painting, and hope to see you soon.
