

Painting with Watercolor on Canvas

(Class No. 1 of 3-part series) with Pat Troiani

Mattawoman Creek Art Center, Marbury, MD

10:00 —4:00, July 20

Until recently, most watercolor artists did not paint on canvas but using some of the latest innovations they do so now and many prefer painting on canvas to painting on paper. In addition to learning the techniques used to apply watercolor paints to canvas, you will learn how to —

- ☞ prepare your canvas and the differences in the various products used for this purpose.
- ☞ apply these same techniques to working on cradle board
- ☞ save a failed painting — something many of us would like to learn, and
- ☞ seal your work so that it does not have to be framed under glass.

Class Series — 1. Painting with Watercolor on Canvas/2. Monoprinting with Gel-Plates/3. Collage using your Gelli-Print Papers on your Watercolor Paintings

This class is open to all skill levels.

\$100 for MCAC Members/\$135 for non-members
